I. INTRODUCTORY STATEMENT

May 1985

To the Honorable Richard W. Riley, Governor of South Carolina, and Members of the General Assembly of South Carolina:

The Joint Legislative Study Committee on Aging is pleased to transmit the Sixteenth Annual Report of the Committee.

This has been a year of change. Our beloved chairman, Senator Hyman Rubin, who had served on the Committee since its reactivation in 1969 and as Chairman since 1977 was not returned to the Senate in the 1984 election. Having served with Senator Rubin since 1969 as Secretary from 1973 to 1977 and Vice-Chairman since 1977, I can certainly attest to his compassion for the elderly of our state.

I appreciate the confidence the Committee has placed in me upon my election as Chairman at our meeting November 29th. Serving with me as officers will be Rep. Dave Waldrop, Newberry, as Vice-Chairman and Dr. C. Julian Parrish, Columbia, gubernatorial appointee as Secretary. Lt. Governor Michael Daniel has reappointed Senators Peden B. McLeod, Walterboro, and William W. Doar, Jr., Georgetown, and appointed Senator Isadore Lourie, Columbia. Senator Lourie returns to the Committee, having served previously as a House member and Vice-Chairman from 1969-1972. Rep. Dill Blackwell, Travelers Rest, will continue his service, completing the House membership on the Committee. We are grateful that the other gubernatorial appointees, Dr. J. Carlisle Holler, Rock Hill, and Mrs. Gloria H. Sholin, Hilton Head, will continue.

One of the first orders of business of the new Committee was to introduce a concurrent resolution commending Senator Rubin for his leadership. It passed both Houses unanimously. We also participated in a reception to recognize Senator Rubin sponsored by the South Carolina Federation of Older Americans and the S.C. Commission on Aging.

Statistics abound regarding the dramatic increase in the elderly population. Of all the numbers

available about our population, the most startling is that in South Carolina the 60+ population increased by 45% from 1970 to 1980, whereas the total state population increased by only 20.4%. By the year 1990, it is projected that those persons 60+ will represent 15.1% of our total population, and of these persons, 27.1% will be 75+. National analysts cite this rapid increase among older persons to be chiefly the result of the high birth rate which took place prior to World War I, the high level of immigration during that time and a decline in the mortality rates. As recently as 1900 in America, the average life expectancy was only 47 years! Today we have achieved a 55% rise in the average life expectancy to 73 years.

The graying of the nation is fraught with social and political implications, and South Carolina has her share. Our Committee has accepted the challenge implicit in these changes and will seek initiatives to improve the quality of life for older South Carolinians. However, we cannot do this alone. We are encouraged by support from individuals, agencies, and organizations in our endeavors.

We are pleased that the Medical University of South Carolina has secured the services of Dr. Allen H. Johnson to chair the McKnight-Boyle Chair of Gerontology. Dr. Johnson is eminently qualified for this position and we look forward to the contributions that he and his colleagues will make in the field of geriatrics.

Among the numerous private groups with whom we work are the SC Federation of Older Americans, the American Association of Retired Persons, the SC Retired Educators Association, and the SC Association of Council on Aging Directors. We appreciate this opportunity to publicly commend these groups for their dedicated service to our present and future "citizens with seniority."

We appreciate the excellent cooperation we receive from the Governor's office and our State agencies: the Commission on Aging, the Department of Social Services, the SC Alcohol and Drug Abuse Commission, the Department of Health and Environmental Control, the Tax Commission, the State Re-

tirement System, the Comptroller General's office, the State Reorganization Commission, the State Library, and, of course, from our colleagues in the House and Senate whose interest and sensitivity help us to achieve our legislative goals.

Respectfully submitted,

Patrick B. Harris, Chairman, Representative
Dave C. Waldrop, Jr., Vice-Chairman, Representative
Dr. C. Julian Parrish, Secretary, Gubernatorial
Appointee
Dill Blackwell, Representative
William W. Doar, Jr., Senator
Peden B. McLeod, Senator
Isadore E. Lourie, Senator
Mrs. Gloria H. Sholin, Gubernatorial Appointee
Dr. J. Carlisle Holler, Gubernatorial Appointee

II. BRIEF HISTORY

In 1959 the first joint legislative committee "to study the needs and problems relating to the aged citizens in South Carolina," was created. Representative Martha Thomas Fitzgerald of Columbia was the first chairperson. This Committee continued its work until 1963. By 1969 the need for a committee to study the problems of the elderly in South Carolina was again evident and the legislature created such a committee under Concurrent Resolution No. 1286. This Committee continued under the authority of continuing resolutions until 1978 when the General Assembly found "the Committee to Study Public and Private Services, Programs and Facilities of the Aging fulfills a necessary and continuing legislative need and that the functions of the Committee can be more properly fulfilled by a permanent Committee," Act 402, Appendix E.

The Committee is made up of three members of the Senate, appointed by the President of the Senate, three members of the House, appointed by the Speaker, and three members appointed by the Governor. The Committee has had four chairmen. Representative Martha Thomas Fitzgerald from Columbia was the first serving from 1959 to 1963. Governor Richard

W. Riley, then Senator from Greenville, served from 1969-1976. Hyman Rubin, Senator, Richland, Chester, Fairfield Counties, was Chairman from 1977-1984. Representative Patrick B. Harris, Anderson, is the current Chairman, elected on November 29, 1984. Representative Dave C. Waldrop, Newberry, was elected Vice-Chairman and Dr. C. Julian Parrish, Gubernatorial Appointee from Columbia was elected Secretary. Other members currently serving are Senator Isadore E. Lourie, Columbia, appointed by Lt. Governor Michael Daniel to succeed Senator Rubin. Continuing from the Senate are Peden B. McLeod, Walterboro, and William W. Doar, Jr., Georgetown. From the House, Rep. Dill Blackwell, Travelers Rest, joins his colleagues. Others appointed by Governor Riley who are continuing are Mrs. Gloria H. Sholin, Hilton Head, and Dr. J. Carlisle Holler, Rock Hill. Sarah C. Shuptrine, Director, Governor's Division of Health and Human Services was the first Director of Research. Keller H. Barron, formerly Bumgardner, succeeded her as Director of Research in 1979. Former members who have contributed their time and talents to the Committee are listed in Appendix F.

Legislation related to aging interests enacted since 1969 is summarized in Appendix D. The current status of legislation related to aging interests introduced by the Committee and others during the 1985 session is included in Sections IV, V and VI of this report.

III. LEGISLATIVE PRIORITIES AND RECOMMENDATIONS 1985 SESSION

The annual public hearing of the Study Committee on Aging was held on September 20, 1984. Thirty-four persons appeared before the Committee and written testimony was submitted by five persons. State agencies, commissions, organizations, service delivery groups and individual interests were represented.

The record of the hearing is available in the office of the Committee 335 D Blatt Building. Copies of the transcription were sent to interested

state agencies and upon request to other organizations and individuals.

Following the hearing, the Committee met on November 29, 1984 to review the testimony and plan the outlook for work for the coming legislative session. Many ideas brought forward in the public hearing and through other contacts were very helpful, pointing to present and future needs and contributing valuable guidance as to immediate priorities.

The Committee's legislative priorities and Committee assignments for the 1985 session follow. The current legislative status is detailed in Section IV.

LEGISLATION PREFILED

Community Services for Functionally Impaired Older Persons, H.2034, S.42 (S.492)

This bill would provide funds for services for health impaired elderly persons to help them to remain in their homes. These services would include home-delivered meals, homemaker services and adult day care. Persons would be eligible based on their need for the services rather than their lack of ability to pay. Payment would be made on a sliding scale formula. Monies generated would be used for additional services. The S.C. Commission on Aging would formulate the regulations for the program.

Death with Dignity, H.2041, S.46

In the House members of the Committee joined twenty others to sponsor this legislation. This bill provides that a person may declare in advance in writing properly witnessed his right not to have his dying hours prolonged by medical intervention. Statewide groups in support of Death with Dignity legislation include: South Carolina Baptist Convention, Christian Life and Public Affairs Committee; Lutheran Church in America, Social Ministry Committee, Lutheran Synod; United Methodist Church, S.C. Conference; Presbyterian Church (U.S.A.); Christian Action Council, South Carolina Medical Association, South Carolina Nurses Association, South Carolina Gerontological Society,

South Carolina Commission on Aging, American Association of Retired Persons, Legislative Committee; South Carolina Federation of Older Americans, Legislative Forum; South Carolina Public Health Association.

Twenty-seven states and the District of Columbia have passed Living Will legislation and four are awaiting the Governor's signature. These states are: Alabama, Arizona, Arkansas, California, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Louisiana, Mississippi, Montana, Nevada, New Mexico, North Carolina, Oregon, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming. Awaiting Governor's signature are: Colorado, Maryland, New Hampshire, Tennessee.

Homestead Exemption: H.2045, S.50

This bill would increase the exemption on the homestead for persons 65 and over, permanently blind or disabled from \$20,000 to \$30,000.

Concurrent Resolution Commending Senator Hyman Rubin, H.2086

The Committee desired to recognize Senator Hyman Rubin for his excellent leadership and sensitivity to the concerns of older South Carolinians. The Resolution passed both Houses unanimously. Chairman Harris presented the Resolution to Senator Rubin on behalf of the Committee at a reception sponsored by the S.C. Federation of Older Americans, the S.C. Commission on Aging and the Committee, March 6, 1985.

SUB COMMITTEE ASSIGNMENTS

Bill of Rights for Residents in Long Term-Care Facilities, Senator Doar, Rep. Blackwell

After a review of the comparison of the Bill of Rights to the federal standards for intermediate and skilled facilities for Medicaid and Medicare patients, it was determined that private-pay patients, not covered by the federal standards, would benefit from the bill as proposed by the Ombudsman office. H.2521 and S.316 (417) were introduced in March.

Burial Fees for Indigents, Mrs. Gloria H. Sholin

Ombudsman Bill Bradley submitted testimony at the

Committee's Annual Public Hearing, concerning the need for burial fees for indigents in various counties around the state.

A survey was devised to address this issue and sent to County Chief Administrators and Department of Social Services County Directors. As a result of the information received and compiled by Columbia College intern Mandy Joy, Mrs. Sholin recommended, and the Committee agreed, not to seek a state appropriation this year.

Probate Code Revision, Senator Isadore E. Lourie, Dr. J. Carlisle Holler

Members of the Committee in the House joined in sponsoring a bill proposing revision along with the Chairman of the House Judiciary Committee Robert Sheheen and members Joe Anderson and Larry Gentry. This version, H.2792, reserves inclusion of the provision to require that a surviving spouse may elect to share in one-third of the decedent's estate. The Senate version S.418, sponsored by Senators John Hayes, Tom Smith and member Isadore Lourie includes this provision. Both bills as introduced include Reporter's comments by James L. LeBlanc.

The revision of the probate code has been under study for nearly ten years. Dr. Carlisle Holler met with the Governor on this issue. The Governor called for revision in his "State of the State" address and sent a letter to the General Assembly stating, "No circumstances more suddenly or surely thrust us as citizens into the legal framework of our government than death and disability. Yet, our present system of laws relating to these events offers only a jumbled mass of rules that result in a time consuming, cumbersome, and expensive process for anyone seeking their guidance."

In the opinion of James C. Hardin, III, a member of the S.C. Bar, which supports revision, the best features of the revision as proposed are:

- (1) Its flexible system of probate and estate administration should simplify the administration of most estates and render probate a less expensive proposition for the average South Carolinian.

(2) It enhances and clarifies the jurisdiction of the Probate Courts.

(3) It unifies South Carolina statutes concerning guardian and ward relationships.

(4) It clarifies South Carolina law in the area of joint ownership of bank accounts, securities and other property held in joint tenancy with right of survivorship.

(5) It introduces a coherent system for dealing with multi-state controversies in the probate area.

(6) Based on the Uniform Probate Code, its similarity to other state probate codes should ease the burdens on those who move into our state.

Hospital Cost Containment, Senator Isadore Lourie, Dr. J. Carlisle Holler

The Committee has worked on this issue in cooperation with Medically Indigent Legislation, H. 2118, S.112

Mandatory Retirement, Dr. C. Julian Parrish, Dr. J. Carlisle Holler

Presently, South Carolina requires mandatory retirement at age 70, with yearly extension to 72. Effective January 1, 1979 federal law eliminated mandatory retirement based on age alone for federal employees. As of 1984, 25 states have removed age limitations for state employees.

The Committee introduced legislation which would make it unlawful to require any person paid by public funds to retire or leave employment on the basis of age alone (exempting law enforcement personnel and firefighters), H.2698, S.44.

Cost of Living, Senator McLeod, Dr. C. Julian Parrish, Dr. J. Carlisle Holler

Information is to be gathered regarding the cost of living increase for retiring state employees as to the percentage from the system and the general fund and as to form whether on the base or as a bonus. A report is to be requested from the State Retirement System regarding the base on which retirement payments are made, with special attention to persons retiring before 1972.

The State Retirement System has recommended a technical amendment, S.476, to transfer the assets of the Post Retirement Increase Special Fund to the

Employer Annuity Accumulation Fund in order to insure the solvency of the fund.

Long Term Care Insurance, Rep. Dave Waldrop, Rep. Pat Harris

The Committee expects to work cooperatively with the Health and Human Services Finance Commission to study the availability, public policies, regulations and public interest in long term care insurance.

Nursing Home Client Screening, Rep. Dave Waldrop, Rep. Pat Harris

Review of mandatory screening statewide for all clients applying for nursing home admission to determine the appropriate level of care is being considered.

Homestead Exemption Increase, Senator William W. Doar, Jr.

Legislation has been introduced to increase the exemption to \$30,000, H.2045, S.50.

VII. COMMUNITY LONG TERM CARE PROGRAM

The South Carolina Community Long Term Care Program provides a statewide system of pre-admission assessment, level of care determination, service planning and authorization, case management and re-assessment for Medicaid eligible clients who require skilled or intermediate level of care.

In December 1984, the CLTC Program received approval from the Health Care Finance Administration for a waiver to provide expanded home and community based services. The program will offer services to elderly or disabled adults who need help to remain at home and thus avoid unnecessary or premature nursing home care.

The services are designed for any Medicaid eligible person 18 years of age or older, who because of illness or disability, has long term care needs and is not able to care for him or herself independently.

Expanded services provided in the person's home are physical, speech and occupational therapy treatments; medical social services and personal care aide services. In addition, two other community services will be provided outside the home, medical day care and respite care.

These services are being made available to those persons who qualify for Medicaid coverage. Depending on the level of recurring income, some persons may be required to share in the cost of provided services.

The Health Care Financing Administration's approval of the waivers, and appropriation of funds by the State Legislature have made these services possible. Combined Federal & State funding is set at 9.9 million dollars for the first year's operation, 1984-85.

Development of the Community Long Term Care Service Management System, and the Expanded Home & Community Services is based on the findings of a Research and Demonstration Project which began activities in Spartanburg, Cherokee and Union Counties in 1978. A statewide Service Management System was established in 1983.

LEGISLATIVE UPDATE

The status of legislation introduced by the Committee and other selected legislation related to aging interests is summarized periodically during the session. This information entitled "Legislative Update" is very popular among legislators, the aging network organizations and individuals and is distributed upon request.

SOUTH CAROLINA COMMISSION ON AGING

The Committee works cooperatively with the South Carolina Commission on Aging.

The South Carolina Commission on Aging is a state governmental agency existing to study, plan, promote and coordinate a statewide program to meet the present and future needs of aging citizens and to encourage and assist in the development of organizations, programs, and services for the aging.

The groundwork for a State Office on Aging was laid in 1959, when the South Carolina General Assembly provided for a Legislative Committee to study the problems of aging in the state and to prepare reports and make recommendations for action.

Year by year, the programs of the Commission improve and expand out of consideration for the state's elderly and with concern that their later years may be lived in health, honor, and dignity.

For all the state's elderly, the Commission on Aging serves as an advocate and as a source of information.

Ex-Officio Members:

Honorable Richard W. Riley, Governor of SC

Honorable Isadore Lourie, Member from the State
Senate

Honorable Patrick B. Harris, Member from the House
of Representatives

The South Carolina Aging Network does not have all of the solutions or money necessary to meet the needs of every elderly person in the state, but

much is being done through the careful consideration of funds to regional and local aging organizations, beneficial legislation, the training of professional and volunteer aging workers, and public information to combat ageism and prevent the unnecessary struggles and suffering that too often accompany old age. The Network endeavors to ensure and restore dignity to the lives of older South Carolinians.

Each Area Agency on Aging develops and administers a regional plan for services under the Older Americans Act. Direct services are subcontracted, primarily with County Councils on Aging.

At the December 5, 1984 meeting of the South Carolina Commission on Aging, the Commission approved a recommendation to study the number, cost and configuration of Area Agencies on Aging in South Carolina and to determine the number and configuration to be effective July 1, 1986.

There are now 15 Planning and Services Areas and 15 Area Agencies on Aging (9 multi-county and 6 single-county). The basic issue that the Commission must address is whether or not the present configuration is the most effective and efficient one possible. Many options will be considered during the year-long study, and public hearings are planned for the summer 1985.

The Commission on Aging has responded to calls for action to initiate, review and support legislation. Contacts have been made with the Governor and members of the General Assembly by the chairman and director expressing the positions of the Commission.

Staff support has been given to the Joint Legislative Study Committee on Aging. The director, his deputy and staff members from the public affairs, legal, and finance divisions provide resource assistance to the Study Committee.

CITIZEN REPRESENTATION

The Committee continues to be interested in representation on boards and commissions by older citizens. The Staff has worked cooperatively with

Mr. Bob Bailey, Chairman of the Citizens Representation Project of the American Association of Retired Persons in providing information of various boards and commissions.

Mr. Lester Hamilton, Chairman of the AARP legislative Committee was appointed by the State Board of Pharmacy on May 8, 1984. Testimony in support of his candidacy was presented to the Committee in September 1983. Mr. Hamilton is the first lay member and only non-pharmacist appointed by the Governor to a six year term.

HIGHER EDUCATION INITIATIVES

McKnight-Boyle Gerontology Chair, MUSC

Dr. Allen H. Johnson has been appointed to occupy the McKnight-Boyle Chair of Gerontology at the Medical University of South Carolina. The Chair was created in 1978 through an endowment of one million dollars by William L. McKnight. The Committee has supported the development of the program since its establishment.

A Division of Geriatrics will be created within the Department of Medicine. The initial emphasis will be on education and service, educating future health professionals in the evaluation and care of the aging patient. The Medical University has some 20 aging research projects involving the issues of aging.

USC School of Medicine

The Department of Family Medicine received a three-year federal grant in 1984 of \$593,000 to enhance the training of medical students and residents in geriatrics and wellness. According to Dr. James B. Ebersole, Chairman, the grant focuses particularly on training in home health care, which he believes to be important in the future care of the elderly.

USC College of Nursing

The College of Nursing was funded in 1985 by the U.S. Department of Health and Human Services for a three-year project to expand the clinical major in the graduate program to prepare clinical nurse specialists in the areas of oncologic, parent-child and gerontological nursing. The Committee staff

has been asked to serve on an advisory committee to the project.

GOVERNOR'S RESOURCE PANEL ON THE ELDERLY

The Governor's Resource Panel on the Elderly submitted their recommendations; "Preparing for a New Generation of Older Americans", to the Governor on March 3, 1983.

A Task Force Implementation Committee was appointed by Governor Riley. Mrs. Barron was asked to serve. This Committee is chaired by Prof. Len Taglia, College of Social Work, University of South Carolina, with Rev. M. L. Meadors Jr., Vice-Chairman. Mr. Winston Thomas, Division of Health and Human Services of the Governor's Office serves as staff to the Committee.

There are 187 recommendations covering six major areas: (1) Economic Security, (2) Long-term Care, (3) Employment Options, (4) Life Enhancing Initiatives, (5) Community Service Options, and (6) Housing Alternatives.

A final report to the Governor is expected to be submitted in the fall of 1985. The report will contain the final status of each recommendation, suggested strategies to increase public awareness of the total process, and to inform policy makers of the issues which will have some impact on the quality of life for future older South Carolinians.

STATE LEGISLATIVE FORUM

For several years the S.C. Federation of Older Americans has sponsored a Senior Citizens Day at the Legislature with the cooperation of the Governor's office of Volunteers, the Study Committee on Aging and the Commission on Aging.

This year the format was changed to provide a more in-depth review of legislative issues. The event called State Legislative Forum was held on March 19 at the Chapel of Hope, State Hospital.

Issues discussed were probate code revision, health care cost containment, community services for functionally impaired elderly, death with dignity, and the indigent care plan. Rep. Dill Blackwell spoke to the group on "How to be Effective in the Legislative Process" and displayed his acting talents in a "Back Home Interview Role Play."

LEGISLATIVE INTERN PROGRAM

Columbia College, Department of Social Work, placed a senior student, Mandy Joy, with the Committee for the Spring semester. The College has used the Committee as a field placement for six years. Students become involved in the legislative process, aware of issues affecting the elderly and understand advocacy for the elderly. Because of the mutual benefits attained from the placement, Columbia College and the Committee determined that such an internship would be regularly offered.

Miss Joy's responsibilities included observing the legislative process, attending various public hearings and meetings, gathering information on Committee legislation, issues, and concerns, assisting with the planning of the State Legislative Forum as recording secretary, constructing a list of Aging Committees in other states, and conducting a survey of South Carolina counties concerning burial fees for indigents.

COMMITTEE AND STAFF LIAISON ACTIVITIES

Members of the Committee and/or staff worked cooperatively throughout the year with the Commission on Aging, Tax Commission, Comptroller General's Office, State Election Commission, State Retirement System, Department of Social Services, Department of Health and Environmental Control, State Library, Commission on Alcohol and Drug Abuse, State Reorganization Commission, Joint Judiciary Subcommittee on Probate Code Revision, Governor's Resource Panel for the Elderly, Department of Religious Studies, College of Nursing, College of Social Work of the University of South Carolina.

Committee representatives on other committees are as follows: Representative Patrick Harris, Health Care Planning and Oversight Committee and the Human Services Integration Project; Rep. Dill Blackwell, Governor's Task Force on Prescription Drugs. The Committee is represented by staff on the Task Force Implementation Committee of the Governor's Resource Panel on the Elderly and the Health Promotion for the Elderly Committee, Advisory Board of the S.C. Gerontology Center and the Geriatric Clinical Emphasis Advisory Committee, USC College of Nursing.

Committee members and/or staff regularly attend sessions of the following organizations interested in aging: American Association of Retired Persons, S.C. Federation of Older Americans, and the S.C. Gerontological Society.

Regular contact is maintained with committees and agencies of other states as well as with the Senate Special Committee on Aging and the House Select Committee on Aging of the U.S. Congress, on which Third District Congressman Butler Derrick serves.

Public presentations are made frequently by the Committee and staff to large and small community and church groups, conferences, workshops, and continuing education programs for hospitals and nursing homes. We are especially pleased to acknowledge the formation and the first annual meeting of the S.C. Adult Day Care Association.

Information about numerous aging issues and legislative action are distributed upon request to members and staff of the S.C. Legislature and other state legislatures, state agency personnel, national and state organizations and interested citizens.

Requests for publications are regularly received and filled for the Committee's past and present Annual Reports, 1970-1984, and other publications researched and produced by the Committee staff and published by other entities as follows: State Services for Senior South Carolinians, November 1981, in cooperation with the S.C. Commission on Aging and the Governor's Office; Housing for Senior Citizens in South Carolina, April 1982, with the

S.C. Commission on Aging; S.C. Boards and Commissions, Opportunities for Older Citizens Representation, August 1982, and the Vacancy Supplements, May 1983 and February 1984, in cooperation with the Citizens Representation Project, American Association of Retired Persons. Distribution is also made of the "Homestead Tax Exemption Program" brochure produced by the Comptroller General's office and the "Personal Medication Record" and "Dental Care for Qualified Senior Citizens" flyer produced by the S.C. Commission on Aging.
